Folding machine TF MEGA-A plus

Standard features:	Folding machine TF MEGA-A plus
Feeding size*[1]	min.*[1]: 91 x 128 mm/max: 297 x 432 mm (A6 to A3)
Paper weight*[2]	50 - 160 g/m²
Fold types	Single, z-, wrap, double parallel, door, engineering & cross fold
Feeding station capacity, max.*[2]	500 sheets (80g/m²)
Variable speed, max.*[2] (adjustablei in 3 levels)	14.400 sheets / h
Automatic feeding	yes
Autom. „Paper-out" control and double sheet protection	yes
Display (English language) with 4-digit counter & pre-counter	yes
Centered form width adjustment	yes
Pre-counter with interval function	yes
Fully automatic fold type adjustment	yes
Adjustable paper pressure	yes
Adjustable paper separation	yes
Fine adjustment of fold parallelism (scewing)	yes
Fully automatic adjustment of paper exit rollers	yes (automatically)
Power saving mode	yes
Conveyor stacker, max. capacity*[2]	300 sheets
Dimensions (ready to use position), in cm (L x W x H)	90 x 48 x 54 cm (ready to work)
Weight	34 kg
Option	
Cabinet for folding machine, on castors (L x W x H)	58 x 45 x 69 cm

*[1] for the minimum size only half fold is offered; *[2] depending on material and applications; (subject to technical changes)

Comfortable to use with top results – with fully automatic fold type adjustment

The solid and durable table top folder TF Mega-A plus is an extremely economic solution to folding even high volumes of paper fast and precisely.

The **TF MEGA-A plus** is versatile and easy to operate. This folding machine can handle documents up to paper format A3.

The adjustment of the folding plates is done fully automatically and in no time: Select your application by pressing a button and the TF Mega-A plus starts folding.

The **TF MEGA-A plus** handles the paper with a maximum speed of 14.400 sheets/h. The capacity of the automatic feeding station is max. 500 sheets. The job counter indicates the number of sheets already processed.
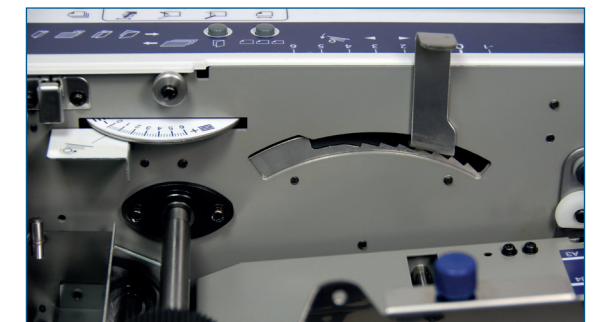

A conveyor stacker guarantees an accurate storage up to 300 sheets. Any adjustments – depending on the size and fold type – are done automatically.

Furthermore, the **TF MEGA-A plus** is equipped with a digital pre-counter (count-down-function) with interval mode. This will allow the machine having short brakes after a fixed number of folded sheets so that the operator can remove a fixed number of documents without stopping the machine.

1 Simple operation
Clear control panel in English language

2 Variably adjustable
Adjustment of paper pressure and paper separation for various paper weights

Convincing technical features!

The **TF MEGA-A plus** offers:

- 7 different fold types up to paper format A3, including cross fold
- Digital display (English language) with a 4-digit job and pre-counter, interval mode and status indication
- An automatic feeding station with a capacity up to 500 sheets
- 2 folding plates with fully automatic adjustments
- Centered form width alignment
- Adjustable paper separation
- Adjustment of the paper pressure. Advanced processing of different paper weights.
- Paper out and jam control as well as double sheet protection
- Automatically adjusted conveyor stacker, according to the paper size

Highlights of the TF MEGA-A plus version:

- Fully automatic adjustment of the folding plates
- Fully automatic adjustment of the stacking unit
- 7 fold types
- 14.400 sheets/h
- Power saving mode
- Pre-counter with interval function

3 Flexible feeding
Moveable feeding roller (left) for an improved feeding with different formats and cross fold

4 Perfect stacking
Large, extendable conveyor stacker for up to 300 folded sheets
